- for reproductive disorder, 118
- Acupuncture, moxibustion and low-power laser for treatment of *serratia-marcescens* infection, 81
- Acupuncture-stimulated skin, scanning electron micrograph, 160
- Acute myelocytic leukemia, treatment of by *Clerodendron Fragrans*, 139
- Alchemy, Chinese vs. Greek, 83; the origin of, 84
- Alveolar macrophages, effect of Qing-Fei-Tang and its main component on, 145
- Analgesic effect of laser acupuncture, 87, 91
- Anti-inflammatory effect of Qing-Fei-Tang, and its main component flavonoid baicalein, 145, 152
- Aqua-acupuncture point for treatment of piglet diarrhea, 76
- Ba-wei-di-huang-wan (hachimijiogan) 29
- Baicalein, effect on: leukotriene B<sub>4</sub>, 151; lucigenin-dependent in alveolar macrophages, 149
- Breath-holding spells, treatment by kan-baku-taiso-to, 155
- Bupleurum Chinese*, 127
- Chemeia and chumei, etymological approach to, 84
- Chinese cosmological system, the elements of, 2, 3
- Chinese cosmology incorporates its humorology and sense of wood, earth and metal, 10
- Chinese medicine, for treatment of diarrhea, 76, 78
- Chinese representation of cosmic elements as graphic symbols, 1
- Chinese symbol of cosmology, 2
- Chrusozmion, the origin of, 86
- Clematis chinensis* (radix), 128, 131, 134, 136
- Clerodendron fragrans*, 139
- effect on induction of differentiation in HL-60 leukemic cell line, 139, 142; on cell viability, 140; on cell count, 141; in treatment of acute myelocytic leukemia, 139; the main components of, 139
- Clerodendron Fragrans* and interferon- $\gamma$  effect on differentiation of HL-60 cell line, 140, 141, 142
- Clinical effect of tokishakuyakusan treatment for ovarian dysfunction, 53, 54
- Clinical effect of Unkei-to treatment for ovarian dysfunction, 53, 54
- Comparison of luteinizing hormone and tokishakuyakusan on progesterone secretion, 14
- Cosmic elements as graphic symbols, the Chinese representation of, 1
- Diarrhea in piglets, treatment of by acupuncture and Chinese medicine, 80
- Dose-dependent hepatic toxicity induced by CCl<sub>4</sub>, 129
- Ear acupuncture in Nigeria, 67; in treatment of musculoskeletal pain and stiffness, 68
- Efficacy of Kan-baku-taiso-to on breath-holding spell, 157
- Electroacupuncture effect in hormone changes, 117
- Gentamycin, for treatment of piglet diarrhea, 78, 79
- Greek cosmology and humorology, interdependent systems of, 1
- Greek cosmological system, the elements of, 2
- Hachimijiogan, 11, 29; components of, 34; in treatment of hormone-related disorders, 34

## Subject Index

- Acupuncture and Chinese Medicine, for treatment of preweaning diarrhea in piglet, 75
- Acupuncture and gonadotropin-releasing hormone effect on: progesterone and oestradiol, 121, 122, 124; serum cortisol levels, 122, 123; serum luteinizing hormone, 119, 121
- Acupuncture and moxibustion effect on lymphoid tissue, 159
- Acupuncture effect on weight change in lymph node, 163, 165
- Acupuncture loci: for treatment of piglet diarrhea, 77;

# INDEX TO VOLUME XVI

- effect on testosterone production, 104; thymidine kinase activity, 31; thymidine kinase and its isozyme activities in prostate gland, 29
- Hachimijogian and Keishibukuryogan, effect on: estradiol-17 $\beta$  concentration in testicular tissue, 98; estradiol-17 $\beta$  concentration in incubation media *in vitro*, 99, 104; serum estradiol-17 $\beta$  concentration, 97, 104; serum testosterone concentration, 96, 101; serum  $\Delta$ 4-androstenedione concentration, 96, 104; steroid production, 93; testosterone concentration in incubation media *in vitro*, 99, 104; testosterone concentration in testes incubation *in vitro*, 100; testosterone concentration in testicular tissue, 98, 101, 104; the sum of medium testosterone plus tissue testosterone in tests incubated *in vitro*, 100; the weights of the testes and hypophysis, 101
- Hachimijogian and Tokishakuyakusan, effect on: cyclic adenosine 3',5'-monophosphate (AMP) accumulation *in vivo*, 43; DNA $\alpha$ -nucleotidyltransferase activity, 37; DNA $\alpha$ -nucleotidyltransferase activity by preovulatory follicles incubated *in vitro*, 41; *in vivo*, 42; protein content *in vitro*, 44
- Hachimijogian, Tokishakuyakusan and DNA $\alpha$ -nucleotidyltransferase activity, relationship between, 44
- Hedyotis corymbosa*, 128, 131, 134, 136
- Hepatitis, treatment of: by *Bupleurum Chinese*, 127; by Chinese medicine, 127
- Hepatic protective effects of Taiwan crude drugs on CCl<sub>4</sub> induced amine transferase, 131
- Hepatotoxic effect of CCl<sub>4</sub> on amine transferase, 130
- Indian cosmological system, the elements of, 2
- Infertility and ovarian dysfunction, 11, 48, 107, 117, 171
- Japanese Kampo medicine, 47; effect of on hypothalamic-pituitary-ovarian function, 47
- Kan-baku-taiso-to, components of, 156
- Kanzo, (*Glycyrrhizae Radix*), 158
- Ko-ken-huang-lien-huang-chi-teng, component of, 79; for treatment of diarrhea, 79
- Laser acupuncture, 87; analgesic effect of, 87, 91
- Low power laser, effect on sensory receptor, 87
- Moxa, 179; burning temperature curve of, 184; organic components of, 179; weight ratio of its main component, heptatriacontane and tannins, 183
- Moxibustion, action of immune function, 165 effect on weight changes in lymph node, 163, 165
- Moxibustion-stimulated skin, scanning electron micrograph of, 162; transmission electron micrograph of, 161
- Ovarian dysfunction, treatment of by: acupuncture, 117; Japanese Kampo medicine, 47; tokishakuyakusan, 11, 48, 107; tokishakuyakusan and gonadotropin, 171; Unkei-to, 48
- Pathological studies on CCl<sub>4</sub> induced hepatotoxicity, 132, 133, 134, 135
- Phellodendron wilsonii* (cotex), 128, 131, 134, 136
- 188
- Prewaning diarrhea in piglets, treatment of by acupuncture and Chinese medicine, 79
- Pulse readings relative to cosmic energies and seasons, 173
- Qing-Fei-Tang (Seihai-to), 145; components of 146; effect on: lactate dehydrogenase, 149; leukotriene B<sub>4</sub>, 151; lucigenin-dependent chemiluminescence of human alveolar macrophages, 148
- Qing-Fei-Tang and its main component, baicalein, effect on alveolar macrophages, 145
- Reproductive disorder, treatment of by acupuncture, 118
- San-huang-hsieh-hsin-tang, action of, 65; components of, 58
- San-huang-hsieh-hsin-tang, effects on: central monoaminergic and GABAergic system, 57; drug-induced convulsions, 59, 60; locomotor activity, 59, 61, 63, 64; whole brain monoamines and its metabolites, 59, 62
- Serratia-marcescens infection, treatment of by acupuncture, moxibustion and low power laser, 81
- Shoubaka* (*Triticum Fructus*), 158
- Taiso* (*Zizyphi Fructus*), 158
- Taiwan crude drugs, effect on: acute hepatotoxicity, 129, 136; serum glutamic pyruvic transaminase, 130, 131, 136; serum glutamic oxaloacetic transaminase, 131, 136
- Tibetan medicine: pulse diagnosis, 173
- Tibetan pulse diagnosis, enemy pulse, 177; evil spirit pulse, 177; family pulse, 176; friend pulse, 177; guest pulse, 176; pregnancy pulse, 178; reversing pulse, 178
- Therapeutic effects of acupuncture on reproductive disturbance, the action of, 121
- Therapeutic effects of acupuncture, Ko-ken-huang-lien-huang-chin-tang and gentamycin in treatment of diarrhea, 80
- Tokishakuyakusan, 11, 21, 47, 169; effects of on, cyclic adenosine 3',5'-monophosphate accumulation of 26, 27; cyclic adenosine 3',5'-monophosphate production, 21; menstrual cycle and hypothalamic-pituitary-ovarian function, 49, 52, 54; ovulation induced by gonadotropin, 169; progesterone concentration in serum and ovarian tissue, 23; progesterone secretion, 14, 18; rat corpus luteum function *in vitro*, 11; serum levels of hormone, 50
- Tokishakuyakusan, for treatment of infertility and ovarian dysfunction, 11, 48, 107, 171; the main components of, 13, 48, 108, 109
- Tokishakuyakusan and its herbal components, effect of on progesterone secretion, from rat corpora lutea, 16; in ovarian tissue, 113, 114; in serum, 109, 110, 111
- Treatment of headache by percutaneous electro-stimulation, psychological aspects of, 71
- Unkei-To, components of, 48; effects of on: menstrual cycle and on hypothalamic-pituitary-ovarian functions, 49, 52, 54; serum levels of hormones, 49, 51, 52
